

Project Title: Clinicians and Digital Mental Health Tools - exploring knowledge, attitudes and training needs

Are you a Registered Health Practitioner working in mental health? Are you training to become one?

We are conducting research to find out what New Zealand clinicians think about digital mental health tools

If you have used an app or a website to support the mental health of your clients or have heard about these resources we would love to hear from you!

This study has 2 parts:

Study 1: A 10 minute online questionnaire

Study 2: A brief 20-30 minute interview

You can take part in one or both parts

If you are interested, click [here](#) to open the questionnaire and learn more
